

Fast Facts

- \$4.7M Sewerage Detention Storage Project.
- Initiated by the Devonport City Council to improve Devonport's Sewerage System.
- Stage 1 was completed by Cradle Mountain Water in October 2009.
- The sewerage detention storage will reduce wet weather sewerage overflows and provides storage in the event of planned maintenance activities.
- State of the art odour control equipment has been installed to minimise odour.
- A standby generator will automatically supply power if the normal power supply is interrupted.
